

MICHELIN® XZR™

GET ALL THE BENEFITS OF MICHELIN®
RADIAL TIRE TECHNOLOGY!

With the MICHELIN® XZR™ tire, you will get:

- Long tire life with excellent resistance to irregular wear
- Fewer flats
- High-carrying capacity
- Excellent traction in a variety of conditions
- Higher speed capabilities

THE TIRE OF CHOICE FOR:

The MICHELIN® XZR™ radial tire for airport ground support equipment, sweepers and forklifts with an exceptional total cost of ownership.

Exceptional Performance:

- Excellent traction; outstanding stability; enhanced operator comfort; less vehicle damage

Excellent Productivity:

- Resistance to impacts and cuts means fewer flats

Low Operating Costs:

- Long-lasting, even-wearing tread pattern; durable with low rolling resistance for efficient fuel economy; easy to repair

MICHELIN® XZR™

SIZE	TREAD DEPTH	
	32nds	MM
6.00R9	12	10
7.00R12	14	11

Higher Speed Capabilities

The MICHELIN® XZR™ tire is engineered for cooler running due to its tread pattern, specialized rubber compounds and radial design, capable of reaching up to 31 mph/50kmh.*

Exceptional Tire Life

Designed with a specific tread pattern and rubber compound to maximize tire life and minimize irregular wear.

All-Season Use

With the exceptional grip of the multi block tread pattern, high lug ratio and large optimized contact area, this tire offers great traction and stability for year-round use.

Maximum Uptime

Strong steel belts and steel casings help to resist punctures and impacts to help increase productivity.

*Compared to the MICHELIN® STABIL'X® XZM™ tire.
